A single/double course / single/double lane which formed by closing public road with asphalt / tarmac surface or gravel surface

20. Course Pattern and Course Walking

- 20.1 Each course pattern map will be shown by a drawn map with running direction and cone distance indicated. It will be distributed to all drivers at the drivers briefing on the first event day.
- 20.2 Individual Qualifying Session can consist of a maximum 4 (four) course patterns, that is 1A, 1B, 2A and 2B,

- Individual Knockout Session can consist of 2 (two) course patterns 3A and 3B in case of a single track.
- 20.3 Team Knockout Session (If applicable) consists of 2 (two) course patterns 4A and 4B in case of a single track
Course Patterns A and B have the same cone but with different directions at some points
- 20.4 There will be a 15 minutes course walking before the start of each stage.
Drivers are allowed to go through the course on foot only.

21. Cone

- 21.1 Cone made of cylindrical tube with height 50 cm and diameter 11 cm
- 21.2 Cone is made up of two colors to help make remembering, with the provision that the first time through the green cone will be on the left side of the driver and the red cone will be on the right side of the driver.

23. Starts and Finish

- 23.1 The start position is marked with one cone with front bumper centre placed touching the cone. Burning tyres is not allowed
- 23.2 Start signal will be with a green light or green flag. The car should immediately cross the starting line on green light turning on or deployment of green flag to trigger the timer and begin the run.
- 23.3 The reaction time is not counted, but intention to delay starting will incur penalty.
- 23.4 Any delay in start beyond 10 seconds of green light/flag, will entail a penalty of 2 seconds, which will be added to stage time.
- 23.5 The timer will stop once the car crosses the finish line.
- 23.6 A cone will be placed 10 meters after the finish line in the middle of the track. The driver must stop the car before the cone- touching or displacing the cone will entail a penalty of 5 (five) seconds added to stage time.
- 23.7 Driver must complete and finish all stage runs in order to be deemed as having completed the race. In case the driver fails to complete a run (due to route disorientation or breakdown etc.) he shall be deemed DNF (did not finish), and a bogey time will be given for that stage.

24. Penalties

- 24.1 Driver has to perform the exact given course pattern in order to be deemed to have finished within a stage time. Should the driver run a wrong route, a bogey time will be given for that run.
- 25.2 In case of a wrong turn during the run, the driver is allowed to re-trace his mistake by tracing back to the correct turn. Should the driver make further mistakes and not be able to connect back to the given course pattern, a red flag will be displayed and a bogey time will then be given for that run.
- 25.3 For every cone knocked down, a time penalty of 2 seconds will be added to stage time, but not if the cones are touched or displaced and remain upright.
- 25.5 2 seconds will be added to stage time if driver does not start within 10 seconds after Starting Signal

- 25.6** For every knocked down cone after the finish line, a penalty of 5 seconds will be added to stage time.
- 25.7** A 2 second penalty will be added every time the car comes in contact with the course edge (border barrier or fence) during the race.
- 25.8** A 2 seconds penalty will be added for any burning tire action before the start.
- 25.9** A bogey time is the slowest stage time (without penalties) plus 10 seconds.

26. Individual Qualifying Session

- 26.1** In the Qualifying Session, each driver will perform a min of 2 heats and a maximum of 4 runs (4 Heats) on 4 different course patterns (course pattern 1A, 1 B, 2A & 2B each).
- 26.2** The starting sequence Qualifying Heat 1 & 2 will be determined by a draw of lots, and it's reversed for the starting sequence Qualifying 3 & 4.
- 26.3** The second driver on registration will start first use the first car run on the course pattern A and then the first driver with the second car run course pattern B
- 26.4** The total time of all runs from different courses will be the individual qualifying result and serve as reference to the ladder position for advancement to the final knockout

27. Individual Knockout Session

- 27.1** The Final Knockout will be the shootout between two drivers based on the FIA ladder system: 1 vs. 32, 2 vs. 31, 3 vs. 30, 4 vs. 29 so on and so forth. (See the diagram in the Appendix 2)
- 27.2** All the drivers in the Qualifying can be invited to participate
- 27.3** Once the pairings are established, it may not change unless the COC determines there is adequate justification for a change and it's approved by the Stewards
- 27.4** There will be only two-course patterns in use for the whole Knockout Session
- 27.5** Each driver will perform 2 runs for each knockout pair.
- 21.6** The winner of each shootout advances to the next ladder level and so forth, until a final winner emerges.
- 21.7** If there is a tie, a re-run will be carried out with changing lane.
- 21.8** If both drivers cannot complete the course, both drivers will be knocked out
