## 2019 Specific Technical Regulations for Rallying FMSCI INRC 2

### **1 - ENGINE**

**READS AS--***1.1 Engine Re boring of 0.5mm maximum is allowed in relation to the original bore without this leading to the capacity class limit being exceeded.*

**Change--** Crossing the limit of 2000cc is permitted, provided that this limit was crossed only by means of reboring to a maximum of 0.5mm over the homologated bore.

### **2 - INTAKE MANIFOLD**

**Reads as--** *Intake Manifold Free but the Mounting points of the Intake Manifold should be same as OE. Fitment dose not entail the modification of other components, (Ex. Fire wall & Bonnet)*

**Addition -** If the injectors are located in/ through the inlet manifold, it is allowed to relocate the injectors in the inlet manifold.

\*\* END \*\*

### **NOTE:**

**Change -** Means that the original wording is to be ignored and the new wording to be adopted.

**Addition -** Means that this is in addition to the original wording
