General Prescriptions for FMSCI Autocross 2019

Existing Art.16.2

Art.16.2 Characteristic Length (measured along the centre-line of the course from start line to finish line): minimum 600 ;(This is compulsory) and a maximum 2400 m. The track will be a twin car track or a single car track with adequate width. *Maximum 2 laps can be run in 600 metres or more. Minimum width of the track should be 3 metres per car.*

Add the following paragraph to Art.16.2

It is expressly forbidden to have a track design such that both competing cars reach the cross over bridge at the same time. The track must be designed keeping in mind, where the tracks leading to the crossover bridge are of grossly unequal lengths, ensuring that the cars arrive above and below the bridge at least 10 seconds apart.

Issued by the FMSCI
